SUBJECT INDEX

A

Acid, nicotinic, effect of, on blood coagulation, *121* (Abst.)
in treatment of xerostomia, *106*
Acromegaly, thyroid gland in, *738* (Abst.)
Adamantinoma, cystic, *157*
Alveolus and maxilla, unusual melanomas of, *270*
Ameloblastoma, atypical cystic, *232* (Abst.)
American society for advancement of general anesthesia in dentistry, announcement, *468*
Anesthesia, general, for oral operations, *704*
local, for oral operations, *582*
nitrous oxide-oxygen, pitfalls in, *389*
Anesthetics, local, use of, in patient suffering from endocrine disorders, *620*
Angina, agranulocytic, chronic leucopenia with fatal termination, due to, *245*
Ludwig's, *496*
Announcement, New York University College of Dentistry postgraduate course, *538*
College of Dentistry postgraduate summer course, *346*
Antrum, infections of, *500*
Arthritis, relationship of, to oral diagnosis, defocalization and streptococcus vaccine therapy, *149*
Aspirin hypersensitivity, incidence of, *58* (Abst.)
Atrophy, alveolar, of unknown origin, case of in child, *676*
Atypical cystic ameloblastoma, *232* (Abst.)
Avertin in oral surgery, *31*

B

Bacteriology of mouth, *580*
Bismuth line and hydrogen sulfide production by mouth microorganisms, *565*
Blood, coagulability of, in essential thrombocytopenic purpura and other diseases associated with thrombocytopenia, *122* (Abst.)
coagulation, effect of nicotinic acid on, *121* (Abst.)
dyscrasias, oral manifestations of, *523*
transfusions, *637*
Bone, malignant tumors of, *166* (Abst.)
surgery, use of vitalium in, *665* (Abst.)
vitalium, use of in, *665* (Abst.)
Burns, tetanus, and gas bacillus infections, *698*
war, treatment of, *666* (Abst.)

C

Calcium and phosphorus in relation to oral pathology, *288* (Abst.)
Cancer, intraoral, treatment of cervical nodes in, *121* (Abst.)
of face, *166* (Abst.)
and mouth: diagnosis, treatment, surgical repair, *734* (Abst.)
of jaws, *167* (Abst.)
of lip *264* (Abst.)
of li[illegible] and cheeks, *167* (Abst.)
of tongue, *122, 167* (Abst.)
Carcinoma, infiltrating, of mandible, *109*
primary mammary, jaw metastases in, *652*
Care, late, of severe injuries of face and jaws, *190*
primary, of injuries of face and jaws, *448*
Caries, experimental in rats, studies on, and mastication, *552*
Case history, importance of taking, in oral surgery practice, *291*
reports, 48, 109, 157, 226, 281, 339, 394, 465, 592, 652, 728
Cause of dilantin hyperplastic gingivitis, *350*
Cavity, oral, malignancies of, *253*
Cheeks and lips, cancer of, *167* (Abst.)
Chemotherapy as aid in management of acute osteomyelitis, *735* (Abst.)
Child, alveolar atrophy of unknown origin in, *676*
Children and infants, teeth of, natural vital staining of, *377*
Cleft lips and their nasal deformities, secondary repair of, *712*
palate and harelip, incidence of supernumerary and congenitally missing lateral incisor teeth in, *599*
Coagulation-globulin in hemorrhages after extraction of teeth, especially in hemophilic patients, *628*
Cold and heat therapy, external, in oral surgery, *472*
Condyle, mandibular, fracture of, complicated by sequestration, *281*
Congress of anesthetists, announcement, *597*
Correction of malocclusion by surgical interference, *172*
surgical, of mandibular prognathism, *736* (Abst.)
Course, postgraduate, at University of Pennsylvania, *234*
Crown of tooth, development of dental root independent of, *465*
Cyst, dentigerous, etiology and development of, *289* (Abst.)
incisive canal, *226, 670*
naso-alveolar, *48*
of maxilla and mandible, *314*
radicular, and granulomas, oral surgeon's and pathologist's study of, *505*
Cystic adamantinoma, *157*

D

Death and dentistry, *407*
Defocalization, oral diagnosis, and streptococcus vaccine therapy, relationship of arthritis to, *149*
Deformities, nasal, in cleft lips, secondary repair of, *712*
Dehydration, *685*
Dental surgical cases, hospitalization for, *667*
Dentistry and death, *407*
and surgery, interrelation of, in treatment of deformities of face and jaws, *10*
development of diagnosis in, *59*
Dento-medical cooperation in field of oral and physical diagnosis, *347*
Denture, partial, faultily constructed, effect of, on tooth and supporting tissue, *640*
Derangement, traumatic internal, of temporomandibular joint, *328*
Dermatitis, roentgen and radium, surgical treatment of, *166* (Abst.)
Desiccation, sterilizing root canal by, *185*
Development and etiology of dentigerous cyst, *289* (Abst.)
of dental root independent of crown, *465*
Diagnosis in dentistry, development of, *59*
in medicine, significance of, *169*
of malignant melanomas, *91*
of tumors of mouth, *333*
oral and physical, medico-dental cooperation in, *347*
defocalization, and streptococcus vaccine therapy, relationship of arthritis to, *149*
relation to ophthalmology to, *101*
responsibility of oral surgeon in, *300*
roentgen, of oral surgical conditions, use of radiopaque diagnostic media in, *64*
Dilantin hyperplastic gingivitis, *350*
in epilepsy, *634*
sodium not cause of vitamin C deficiency, *56* (Abst.)
Disease, deficiency manifestations of, *461*
Diseases, common skin, of childhood, *734* (Abst.)
deficiency, clinically associated, *120* (Abst.)
of teeth, jaws, and mouth, histologic, roentgenologic, and clinical study of, *345* (B. rev.)
Dosage, vitamin, adequate, *336*
Drainage, intraosseous, in management of acute anterior teeth, *557*
Drains and irrigations in oral surgery and exodontia, *475*
Drugs, sulfonamide, use of, *683*
Dyscrasias, blood, oral manifestations of, *523*

E

Edema of legs, hereditary (Milroy's disease) associated with other congenital anomalies, *165* (Abst.)
Effect of faultily constructed partial denture on tooth and supporting tissue, with reference to formation of fibrocartilage in periodontal membrane as result of disturbed healing caused by abnormal stresses, *640*
Electrosurgery, *83*
changing of muscle and tissue attachments and excision of hyperplastic tissues by, *264*
elimination of pyorrheal pocket by, *135*
sterilization of root canals by, *185*
Endocrine disorders, use of local anesthetics in patients suffering from, *620*
Epilepsy, use of dilantin in, *634*
vitamin C in, *56* (Abst.)
Etiology and development of dentigerous cyst, *289* (Abst.)
Evaluation, clinical, of tertiary butanol hydrogen peroxide or "perhexogen" and "iodine plus," *530*
Examination of tongue, *1*
Exostoses, multiple, of maxilla, *339*
Extraction of teeth, use of coagulation-globulin for hemorrhages from, *628*

F

Face and jaws, deformities of, treatment of, interrelation of dentistry and surgery in, *10*
injuries of, late care of, *190*
primary care of, *448*
war injuries of, emergency treatment of, *598* (Abst.)
and mouth, cancer of, *734* (Abst.)
cancer of, *166* (Abst.)
defects of, repair of, with prosthesis using latex compound, *323*
jaw, and neck, swellings of, in oral diagnosis, *208*
massive destruction of, *123* (Abst.)
Failure, respiratory and cardiac, and shock, *618*
Fixation, skeletal, treatment of fractures of mandible by, *364*
Flap operation in advanced periodontoclasia, *612*
Flaps and incisions, *502*
Formation of fibrocartilage in periodontal membrane as result of disturbed healing caused by abnormal stresses, *640*
Fracture of mandibular condyle complicated by sequestration, *281*
Fractures, nasal, treatment of, *105*
of mandible, treatment of, by skeletal fixation, *364*
of upper and lower jaws in war time, surgical and dental treatment of, *661* (Abst.)
Fusospirochetosis or Vincent's infection, *479*

G

Gas bacillus infections, burns and tetanus, *698*
Gingivitis, dilantin hyperplastic, *350*
Gold therapy, rosea-like dermatitis (pityriasis) following, *123* (Abst.)
Granulomas and radicular cysts, oral surgeon's and pathologist's study of, *505*

H

Harelip and cleft palate, incidence of supernumerary and congenitally missing lateral incisor teeth in, *599*

Heat and cold therapy, external, in oral surgery, *472*
Hemophilic patients, use of coagulation-globulin in hemorrhages after extraction of teeth in, *628*
Hemorrhage, *701*
History, case, importance of taking, in oral surgery practice, *291*
Hospitalization for dental surgical cases, *667*

I

Impacted third molar in orthodontics, *592*
Incisors, maxillary, operative procedures on, nasopalatine block injection as aid in, *426*
Infants and children, teeth of, natural vital staining of, *377*
Infection, Vincent's, or fusospirochetosis, *479*
Infections, antral, *500*
dental, and their sequelae, *515*
gas bacillus, burns and tetanus, *698*
Inhalation and artificial respiration, *405* (Abst.)
Injection, nasopalatine block, as aid in operative procedures for maxillary incisors, *426*
Injuries and wounds, *526*
of face and jaws, late care of, *190*
primary care of, *448*
war, of face and jaws, emergency treatment of, *598* (Abst.)
Incisions and flaps, *502*
Iodine plus, clinical evaluation of, *530*
Iodochloral, use of as diagnostic media in roentgen diagnosis, *66*
Irrigations and drains in oral surgery and exodontia, *475*

J

Jaws and face, deformities of, treatment of, interrelation of dentistry and surgery in, *10*
injuries of, late care of, *190*
primary care of, *448*
war injuries, emergency treatment of, *598* (Abst.)
cancer of, *167* (Abst.)
cystic tumors of, *313*
face, and neck, swellings of, oral diagnosis in, *208*
fractures of, surgical and dental treatment of, in war time, *661* (Abst.)
metastases in primary mammary carcinoma, *652*
mouth, and teeth, brief review of anatomy, blood and nerve supply of, *469*
upper, tumor of, *468*, (Abst.)
Joint, temporomandibular, traumatic internal derangement of, *328*

L

Latex compound, repair of facial defects with prosthesis using, *323*
Lesions of oral cavity caused by physical and physiochemical factors, *57* (Abst.)
mucosa treated with specific vitamins, *125*
Leucemia, chronic lymphatic, *549*
Leucopenia, chronic, with fatal termination due to agranulocytic angina, *245*
Leucoplakia of palate, note on histopathology of, *35*
Lip, cancer of, *664* (Abst.)
Lipiodol, use of, as diagnostic media in roentgen diagnosis, *64*
Lipoma of tongue, *404* (Abst.)
Lips and cheeks, cancer of, *167* (Abst.)
Ludwig's angina, *496*
Lupus erythematosus, acute, disseminated, treatment with sulfanilamide and allied products, *120* (Abst.)
Lymphangiomas of tongue, *128*

M

Malignancies of oral cavity, *253*
Malocclusion, correction of, by surgical interference, *172*
Mandible, cysts of, *314*
fractures of, treatment of, by skeletal fixation, *364*
infiltrating carcinoma of, *109*
Manifestations, oral, of blood dyscrasias, *523*
Mastication and experimental rat caries, studies on, *552*
efficiency of, studies on, *309*, *383*, *458*, *552*
Maxilla and alveolus, unusual melanomas of, *270*
cysts of, *317*
multiple exostoses of, *339*
Medication, pre- and postoperative, *590*
Medicine, diagnosis in, significance of, *169*
Medico-dental cooperation in field of oral and physical diagnosis, *347*
Melanoma, malignant, *90*, *290* (Abst.)
of mouth, review of, *405* (Abst.)
of palate, *290* (Abst.)
unusual, of alveolus and maxilla, *270*
Metastases, jaw, in primary mammary carcinoma, *652*
Method of eliminating pyorrheal pocket by electrosurgery, *136*
of suturing, sutures, and needles, *489*
Molar, impacted third, in orthodontics, *592*
Moulage prosthesis, *214*
Mouth and face, cancer of, *734* (Abst.)
bacteriology of, *580*
jaws, and teeth, brief review of anatomy, blood and nerve supply of, *469*
malignant melanoma of, review of, *405* (Abst.)
microorganisms, bismuth line and hydrogen sulfide produced by, *565*
tumors of, diagnosis of, *333*
Mucosa, oral, lesions of, treated with specific vitamins, *125*
Muscle and tissue attachments, changing of, and excision of hyperplastic tissues by electrosurgery, *264*
strength of normal and fluorosed rats, studies on, *458*

N

Neck, face, and jaw, swellings of, oral diagnosis in, *208*
Needles, sutures, suturing, and suturing methods, *489*
Neuralgia, superior laryngeal, *344* (Abst.)
trigeminal, *570*, *605*
major, *404* (Abst.)
treatment of, *344* (Abst.)

Nicotine poisoning in a child, *164* (Abst.)
Nitrous oxide and oxygen anesthesia for dental surgery, *539*
pitfalls in, *389*
Nodes, cervical, treatment of, in intraoral cancer, *121* (Abst.)
Novocain injection of trigger zones for trigeminal neuralgia, *570*
Nutrition clinic, visit to, *165* (Abst.)

O

Odontoma, compound, composite, with impacted deciduous and permanent cuspid teeth, *394*
Operation, flap, in advanced periodontoclasia, *612*
for cystic tumors of jaws, to prevent deformity and loss of useful teeth, *313*
on maxillary incisors, nasopalatine block injection as aid in, *426*
Operations, extra- and intraoral, sterile procedure for, *588*
oral, general anesthesia for, *704*
local anesthesia for, *582*
Ophthalmology, relation of, to oral diagnosis, *101*
Orthodontics, impacted third molar in, *592*
Osteomyelitis, acute, chemotherapy as aid in management of, *735* (Abst.)
Oxygen and nitrous oxide anesthesia for dental surgery, *539*
pitfalls in, *389*

P

Pain, sources of, in trigeminal neuralgia, discussion of, *570*
Palate, effect of stomatitis nicotina on, *38*
leucoplakia of, note on histopathology of, *35*
malignant melanoma of, *290* (Abst.)
Parotitis, postoperative, *168* (Abst.)
Pathologist's and oral surgeon's study of granulomas and radicular cysts, *505*
Pathology, oral, *345* (B. rev.)
calcium and phosphorus in relation to, *288* (Abst.)
Perhexogen, clinical evaluation of, *530*
Periodontoclasia, advanced, flap operation in, *612*
Peroxide, tertiary butanol hydrogen, or "perhexogen" and "iodine plus," clinical evaluation of, *530*
Phosphorus and calcium in relation to oral pathology, *288* (Abst.)
Pityriasis: rosea-like dermatitis following gold therapy, *123* (Abst.)
Problem of dehydration, concern of dentist in, *685*
Procedure, sterile, for extra- and intraoral operations, *588*
Prognathism, mandibular, surgical correction of, *736* (Abst.)
Prosthesis, moulage, *214*
of latex compound, repair of facial defects with, *323*
surgical, *689*
Purpura hemorrhagica after arsenic therapy treated with vitamin P, *343* (Abst.)
Pyorrheal pocket, elimination of, by electrosurgery, *135*

R

Rats, normal and fluorosed, studies on muscle strength of, *458*
studies of masticatory efficiency of, *383*
Removal of impacted supernumerary tooth, *728*
Repair of facial defects with prosthesis using latex compound, *323*
secondary, of cleft lips and their nasal deformities, *712*
Respiration, artificial, and inhalation, *405* (Abst.)
Responsibility of oral surgeon in diagnosis, *300*
Rhabdomyoma of tongue, *235*
Root canals, sterilization of, by desiccation: electrosurgery, *185*
dental, development of, independent of crown, *465*

S

Salivary calculus (sialolithiasis), report of cases of, *435*
Sedative agents, use of, *733* (Abst.)
Sequelae of dental infections, *515*
Sequestration complicating fracture of mandibular condyle, *281*
Shock, respiratory and cardiac failure, *618*
Sialolithiasis (salivary calculus), report of cases of, *435*
Skin diseases, common, of childhood, *734* (Abst.)
Staining, natural vital, of teeth of infants and children, *377*
Sterilization of root canal by desiccation, electrosurgery, *185*
Stomatitis nicotina and effects on palate, *38*
Vincent's, *288* (Abst.)
Streptococcus vaccine therapy, oral diagnosis and defocalization, relationship of arthritis to, *149*
Stress, abnormal, cause of formation of fibrocartilage in periodontal membrane as result of disturbed healing, *640*
Studies on masticatory efficiency; mastication and experimental rat caries, *552*
Study on masticatory efficiency, *309*, *383*, *458*, *552*
Sulfamido compounds, local use of, in treatment of infected wounds, *57* (Abst.)
Sulfanilamide, story of, *275*
